

COULEURS NATURELLES
NATURAL COLORS
COLORI NATURALI

CHANVRE - HEMP - CANAPA

FRA Les couleurs produites par les plantes tinctoriales sont naturelles, harmonieuses et uniques. Les nuances et les intensités des couleurs peuvent varier légèrement en fonction du moment de récolte des plantes, de leur pourcentage par rapport au poids de la fibre, du temps d'immersion par rapport à l'indigo.

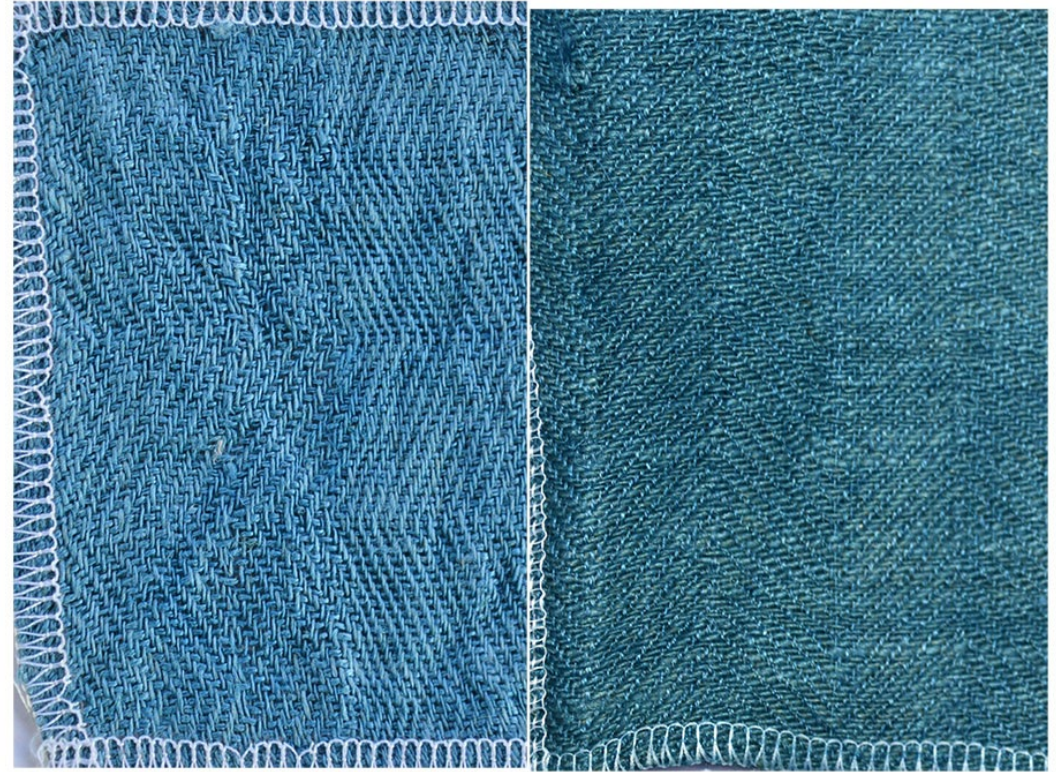

ENG The colors produced by dyeing plants are natural, harmonious and unique. The shades and intensity of the colors may vary slightly depending on the harvesting time of the plants, their percentage compared to the weight of the fiber, the immersion time with regard to indigo.

ITA I colori prodotti dalle piante tintorie sono naturali, armoniosi e unici. Le tonalità e intensità dei colori possono variare leggermente a seconda del tempo di raccolta delle piante, dalla loro percentuale rispetto al peso della fibra, dal tempo di immersione per quanto riguarda l'indaco.
